APPLICATION FOR WATER SERVICE

CANAAN FIRE DISTRICTS 1 NEW WATER SERVICE RULES AND REGULATIONS

1. Applicant should complete Section I and return it to the Canaan Town Office located at 318 Christian Hill Road, Canaan, VT as soon as possible after it is determined that a new water service is necessary. Please include the \$50.00 fee when submitting the application.
2. Upon completion of the application, Canaan Fire District 1 will determine the appropriate charges and notify the Applicant of the estimated cost and water availability.
3. Canaan Fire District 1, along with the Canaan Water Department will conduct a technical review of the plans and specifications for compliance with the Canaan Fire District's Rules and Regulations.
4. Upon full payment of the application fee and inspection of the water service, the application will be processed.
5. The Canaan Water Department will review and determine the type of backflow device to be installed.
6. **The customer portion of the service pipe must lie in a straight line from the curb to the inside of the building and be perpendicular to the centerline of the street. Proposed alignment of the service must be approved by Canaan Fire District 1. The customer's service pipe must be laid with a minimum of 10 feet separation from the sewer lateral and a minimum of 5 feet separation from the gas. The customer's service pipe must be laid with a minimum of 5 feet cover.**
7. All buildings/units will have separate water services from the water main to the individual building/unit, unless otherwise approved. An aboveground heated enclosure may be required at the discretion of Canaan Fire District 1.
8. For 1-inch and 2-inch pipe end in sidewalk: Developer shall cap the end of the pipe to prevent dirt or other unwanted particles from entering the pipe. Pipe end shall be marked or staked. **The contractor is not to connect into the Canaan Water System.**
9. Applicant shall notify the Canaan Water Department as soon as possible to schedule an appointment to have their water meter installed.
10. All services must be installed prior to the winter shutdown as directed by the Canaan Water Operator which is typically around November 15th.
11. All paid applications will be reviewed and executed in the order in which they were submitted.

APPLICATION FOR WATER SERVICE

CANAAN FIRE DISTRICT 1'S INSTALLATION AND MAINTENANCE RESPONSIBILITIES

The Fire District shall be responsible for installing, operating, maintaining, replacing as necessary the primary components of the water system, including the well, pumps, reservoir, chlorinator, pressure tanks, main water lines and other equipment and apparatus appurtenant to the water system leading to an inclusive of the shut off valves connecting the primary components of the water system with the individual service lines extending to each residential dwelling. All costs of acquisition and installation of the primary components of the water systems shall be paid by the Fire District which shall own said primary components. The Fire District shall operate, keep, maintain, and replace the primary components of the water system in a good and careful manner to prevent freezing, leakage or other damage or operating deficiencies. The Fire District shall not however, have or incur any liabilities for quantity or quality deficiencies of water provided to the owners. **All new or updated mobile home meter installs will include a meter pit and the cost to be borne by the property owner.**

OWNER'S INSTALLATION AND MAINTENANCE RESPONSIBILITIES

Each owner shall be responsible for installing, operating, maintaining, and replacing as necessary the secondary components of the water system, including the individual service line extending from the shut-off valve at the main line to the owner's residential dwelling and all water pipes and other fixtures and equipment within the dwelling. The plumbing in each dwelling within the Fire District must be adequate for a maximum water pressure of 90 pounds per square inch. There shall be within each dwelling sufficient space, shelter, and protection from weather and freezing conditions necessary for water service to the dwelling. Each owner shall keep, maintain, and replace as necessary the secondary components of the water system appurtenant to each owner's dwelling and all water pipes, plumbing and fixtures in a good and careful manner to prevent freezing, leakage, or other damage or operating deficiencies. Each owner shall pay for, own and be responsible for the secondary components of the water system serving his dwelling and their maintenance and replacement as necessary.

CANAAN FIRE DISTRICT 1'S EQUIPMENT

Under no circumstances will the District owned equipment be loaned out to individuals or their hired representatives. All District services must be scheduled through the Town Office and carried out by the Canaan Water Department
